

ADVANCED SECURITY OPTIONS

We offer advanced security features to support your challenging requirements

www.equatex.com/securityplus

DESIGNED TO HIGHEST STRICTEST STANDARDS

Our EquatePlus platform was built from the ground up with the security you expect from leading international financial institutions. Equatex recognise that each company has its own exacting requirements, and we offer additional security options to fit your individual needs perfectly.

From inbuilt features like Two Factor Authentication and Data Encryption at Rest to secure dedicated VPNs, our solutions give you the peace of mind that comes with advanced security.

Streamline your global compensation plan management

SECURITY DESIGNED FOR TODAY'S INTERNATIONAL BUSINESS

EquatePlus is designed to support global equity and non-equity plans. It is protected both by our high security standards and those required by Swiss Banking Audit Regulations. While its core features provide you with security and peace of mind, the platform's flexibility allows you to customise your preferred set-up and secure functionality.

EXTENDED SECURITY OPTIONS

TWO-STEP VERIFICATION

Protect transactions and accounts with an SMS code

SINGLE SIGN ON (SSO)

Access EquatePlus easily through your network's authentication

ENCRYPTION AT REST
